Dual-purpose function

O'Cool boots can be also used to warm up before work. Simply soak the boots in a warm water for a few minutes. Apply them straight on the legs for 20 minutes. The tissues will warm up nicely. After work repeat the process with a cold water for a cooling relaxation.

Meet the new top quality O'Cool therapy boots

Say goodbye to hours of standing with a hose in your hand or hard ice bags melting in 10 minutes. Cool down affected areas gently and efficiently. Eliminate the risk of tissue damages from extreme cold. Use O'Cool therapy boots over and over again by simply soaking them in cold water.

It's so O'Cool to:

Prepare:

1. **Soak them in a bucket of cold water for less than 5 minutes** (first activation time is app 15 minutes).
2. **Dry the surface of boots with a cloth** so they are cold but not dripping.

O'Cool tips & tricks:

The colder water you use, the colder the boots will get.

To speed up the absorption, use your fingers to distribute the inner material through the whole boot by little movement and soft pressing.

Use:

1. **Place the boot on the horse's leg and fix it by securing the Velcro straps.** Each boot is marked as left or right.
2. Leave the boots for **20 - 30 minutes on horse's legs.**

Care:

1. If dirty after use, **simply rinse the boots with water.**
2. **Hang the boots in space and let them dry** until the next use.
3. For more convenient storage **use our specially designed accessory bag.** Just unfold the bag by opening a zip and fasten the boots using the Velcro straps.
4. If you head for the road, pack the boots in a bag.

Recommendations

Do not use on cuts, abrasions or damaged skin.

Do not wash in washing machine. Avoid drying on direct sun or with artificial heating.

Avoid contact with salt water.

Dispose as a normal municipal waste.
